Daniel H. Our free cash flow was solid. We expect cash flow to accelerate throughout the year. We are carrying momentum from the quarter, which we believe will produce another successful year for the underlying business. Our recently announced agreement to acquire Chemtura Corporation's AgroSolutions business facilitates our entry into the crop protection vertical, which, combined with our current operations, is a major step towards our goal of creating a truly world-class and world-scale organization. We continue to be opportunistic within our target-rich environment and, at the same time, remain steadfast in our disciplined approach to building a portfolio of true market leaders in niche verticals."

Frank J. Monteiro, Platform's Chief Financial Officer, added, "Our ability to successfully execute on our key operational initiatives paved the way for record level-first quarter gross margins and adjusted EBITDA performance. The highly cash generative nature of our business provides us with the agility to pursue growth initiatives, while preserving the overall strength and integrity of our balance sheet."

Financial Results

Net Sales

Platform reported net sales of \$183.7 million for the first quarter of 2014, up 1.0% compared to \$182.1 million in net sales for MacDermid, Incorporated ("MacDermid" or the "Predecessor") in the year-ago period. Within this, the Performance Materials segment reported sales of \$143.1 million and sales within the Graphics Solutions segment totaled \$40.6 million, representing a 3.1% increase and a 6.2% decrease, respectively, compared to sales for each of the Predecessor's businesses in the first quarter of 2013. The increase in net sales is primarily attributable to higher demand for electronic products in Asia, which was partially offset by lower sales of offshore

fluids and anticipated lower demand for newspaper plate products.

Gross Profit

Gross profit for the first quarter of 2014 was \$84.2 million, representing a gross margin of 45.8%. Excluding a one-time charge relating to the elimination of manufacturer's profit in inventory charged to cost of sales in connection with the acquisition of MacDermid on October 31, 2013, adjusted gross profit was \$96.2 million, up 3.0% compared to MacDermid's adjusted gross profit in the first quarter of last year. Adjusted gross margin reached a first-quarter record high of 52.3%.

Operating Expenses

Operating expenses for the first quarter of 2014 were \$80.2 million, compared to \$63.6 million in the first quarter of 2013. Excluding one-time charges primarily related to a non-cash fair value adjustment to contingent consideration and to amortization expense on newly valued intangible assets associated with the MacDermid acquisition, combined operating expenses would have been \$53.8 million, down 2.4% compared to MacDermid's adjusted operating expenses in the first quarter of 2013.

Net Income (Loss)

Net loss was \$5.9 million in the first quarter of 2014 compared to net income of \$15.3 million in the same period in 2013. Excluding one-time charges primarily related to the elimination of manufacturer's profit in inventory as well as a non-cash fair value adjustment to contingent consideration, at a normal tax rate of 33%, adjusted net income for the first quarter of 2014 was \$23.2 million, a 15% year-over-year increase compared to MacDermid's adjusted net income in the first quarter of 2013. Adjusted earnings per diluted share was \$0.17 for the first quarter of 2014.

Adjusted EBITDA

Adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA") for the first quarter of 2014 grew 12.2% to \$45.9 million from \$40.9 million in the first quarter of 2013, representing a record level for adjusted EBITDA in the first quarter compared to MacDermid's performance prior to its acquisition by Platform. Adjusted EBITDA margin climbed to 25.0% vs. 22.5% in Q1 2013.
