MACDERMID GRAPHICS PRESENTING INTERTECH™ AWARD WINNING ANTI-FLUTING TECHNOLOGY AT TAGA TECHNICAL CONFERENCE

(Atlanta, GA USA) - MacDermid Graphics Solutions will present its Printing Industries of America (PIA) InterTech award winning Anti-Fluting Plate Technology for Corrugated at the 2019 Technical Association of the Graphic Arts (TAGA) Annual Technical Conference being held March 17-20 in Minneapolis, MN. The TAGA Annual Technical Conference presentations will focus on emerging science, technology, and applications of all forms of graphic technology and printing processes.

Dan Fry, Corrugated Portfolio Manager at MacDermid Graphics, will discuss MacDermid's all-encompassing anti-fluting platform during his presentation: Flexo Plate Technology Optimized for Corrugated. This innovative new plate technology platform is proven to result in more appealing graphics due to reduction of image distortion from corrugated flutes.

For additional information about the TAGA Annual Technical Conference, please visit their website at <https://www.taga.org/annual-technical-conference/>
